### LANGUAGES

Spanish

English

Portuguese

### VOLUNTEERING

Girls who code, Brookline, MA, USA

Science club for girls, Cambridge, MA, USA

### WORK EXPERIENCE

#### Frontend Engineer

Damedic - Munich, Germany June 2022 - Present

- Upgraded react packages and took code software quality up to date with the latest technologies.
- Implemented key features to increase revenue by minimizing the work of our stakeholders.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.
- Improved tools to boost user interaction and deliver design versatility.
- Translated UX and business requirements into elegant code solutions.
- Tested web-based product functionality and delivered iterations to customer.

**Technologies:** React Native, Typescript, Jest, GitLab, GraphQL, Storybook

#### Senior Frontend Engineer

Agrando - Munich, Germany July 2021 - May 2022

- Published and deployed AgrandoPro on Android and iOS.
- Performed beta testing with Testflight and Android Beta Channel releases.
- Implemented a test-driven development with Jest.
- Used Firebase's live database update notification to enable real-time messaging with push notifications.
- Insured code robustness by using Typescript on React Native mobile Frontend.
- Led team in the adoption of React-Native best practices.
- Implemented design specifications from UI/UX designer.
- Onboarded new team members and started a documentation-driven team by leading by example.
- Made calls to the backend using GraphQL.

**Technologies:** React Native, Firebase, Typescript, Jest, Django, GitLab, GraphQL

#### Full Stack Developer

Paytronix Inc - Newton, MA, USA April 2016 - June 2021

- Designed, developed, and maintained REST accessible endpoints in Scala to support front-end React applications.
- Responsible for defining new SQL tables structures, columns, stored procedures, and data migrations.
- Collaborated with other teams to design and implement UI components in React, Lift, or JSP.
- Build on AWS using S3, EC2, and Lambda
- Translated design team's UX wireframes and mockups into responsive, interactive features using ReactJS.
- Worked on migrating email service providers.
- Created custom ReactJS components for an internal framework.

**Technologies:** Scala, JavaScript, SQL, AWS Tools

#### Software Engineer

Syntel - Boston, MA, USA June 2015 - April 2016

- Wrote RESTful Applications that returned the customers' bank information written in Node.
- Designed and Documented UI elements to provide a seamless experience to the user.
- Actively investigated interesting new tools and techniques.
- Maintain ownership of the design throughout the Software Development cycle, ensuring continuing updates to the design.

**Technologies:** Java, SQL, NodeJs, ReactJs, JavaScript
